

Name and current grade

Present levels of performance-
any essential test scores

6 Principles of Special Education

Main areas of concern for
today's meeting

Things I need more explanation
on, from school

1. **Parent Participation-**
Parent is an equal member
of IEP team
2. **LRE-Least restrictive envi-
ronment** must be consid-
ered first.
3. **FAPE**-every child gets a
free and appropriate edu-
cation
4. **Are the appropriate evalu-
ations** done to determine
areas of need?
5. **The plan must be individu-
alized**--plan is to fit your
child, not to force-fit your
child into an already ex-
isting plan.
6. **Procedural safeguards-**
there are laws and statutes
that guarantee you this;
you do not have to take
whatever is offered if it's
not appropriate.

What does next year look like/
transition

SDIs that are working and
not working

****You do not have to sign any-
thing today. You have 10 days
to read and think it over.****

Remember pendency or the
stay-put clause--your child
stays put in current placement
until an agreement is reached.
If you do not like the place-
ment being offered, do not
agree to "just try it out" be-
cause that will then become
their pendent placement

Medications and Side Effects
