

ASKING MY FRIENDS TO PLAY

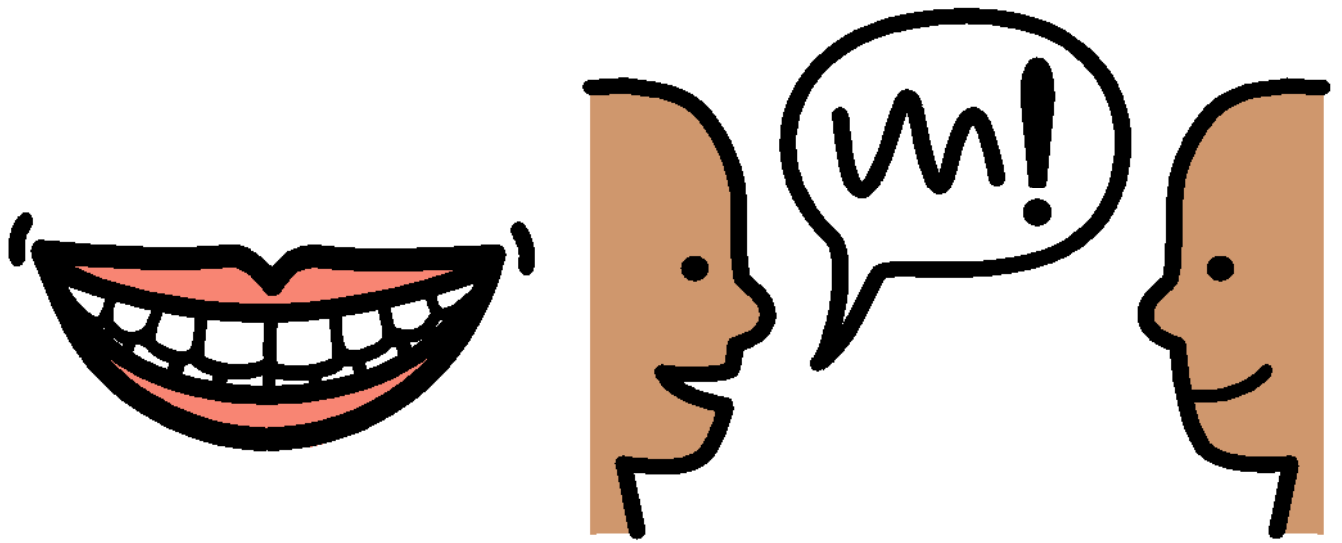

We might play chasey, or dig in the sandpit,
or throw a ball, or something else.

I like to play with my friends at school.

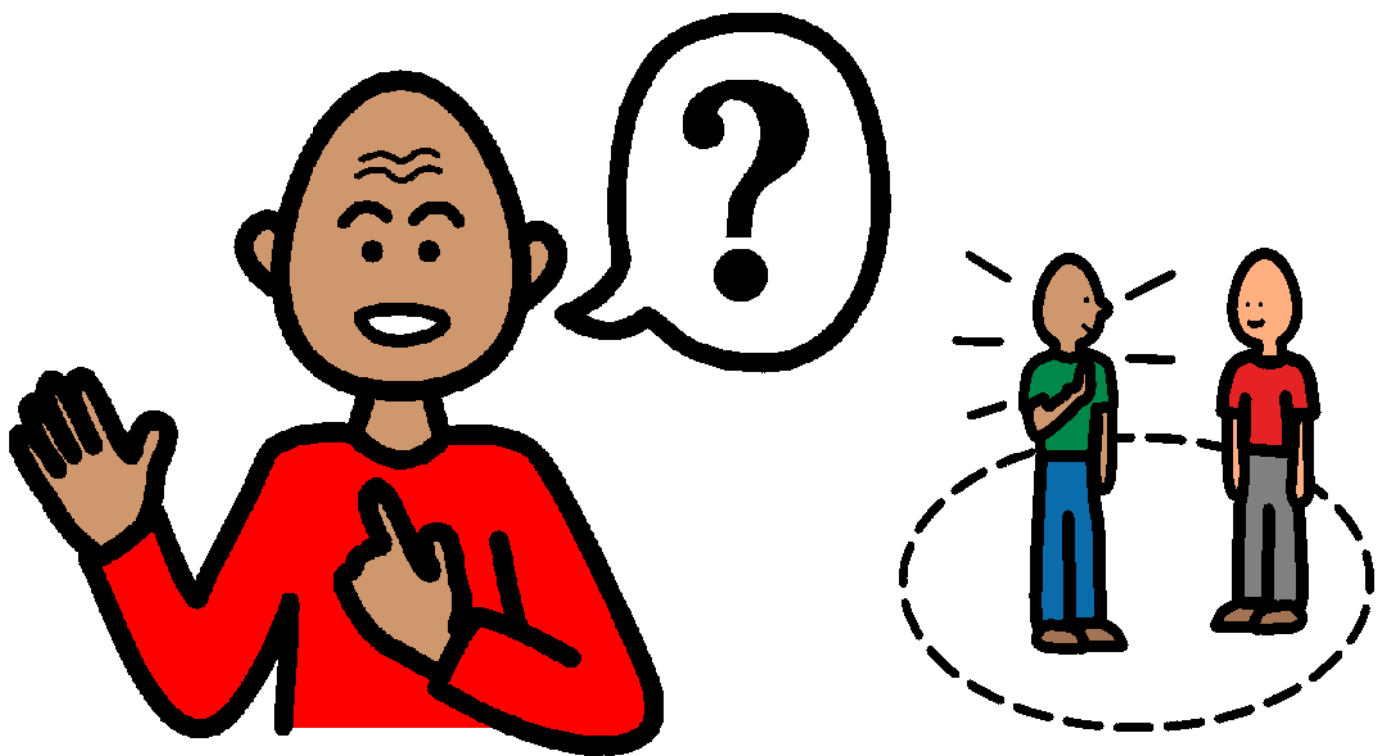

Sometimes I see my friends playing a game
and I want to play too.

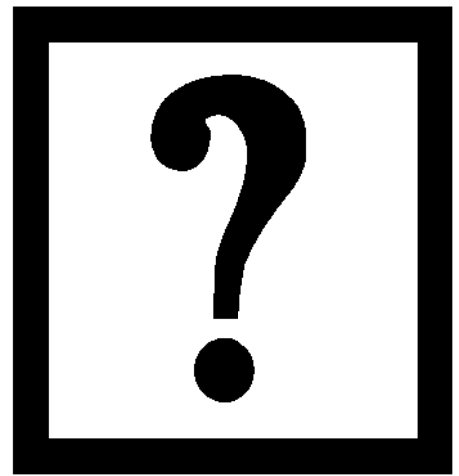

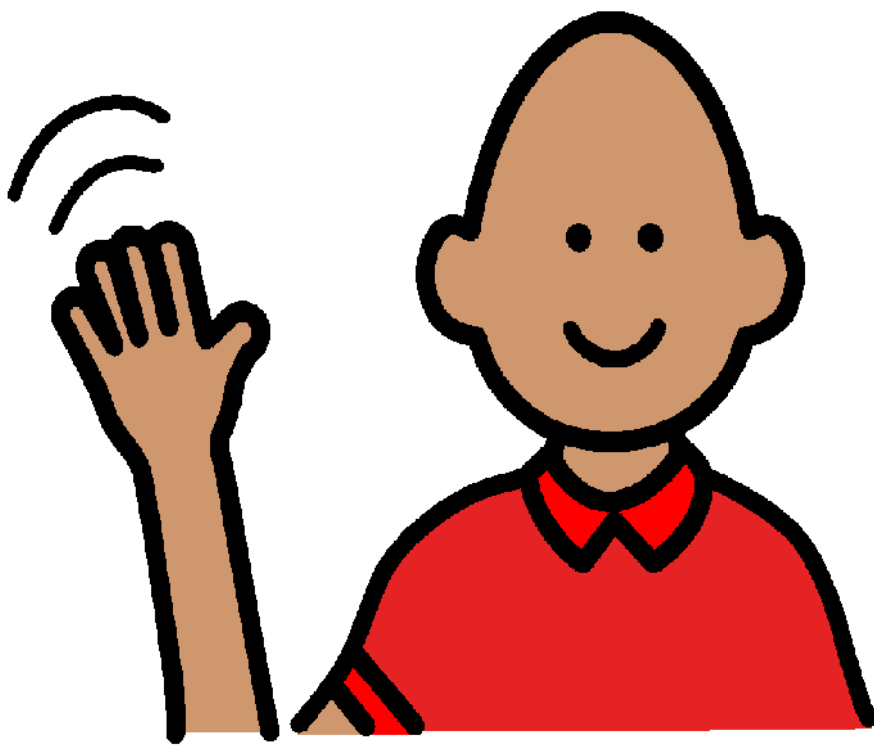

If I want to join in my friend's game,
I need to smile and use my words.

5

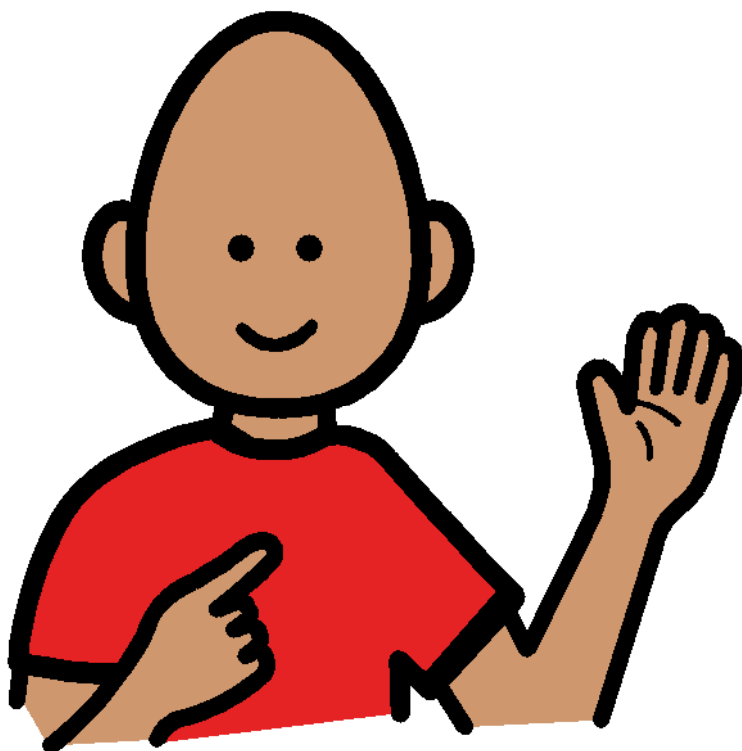

I can say "Can I have a turn?"

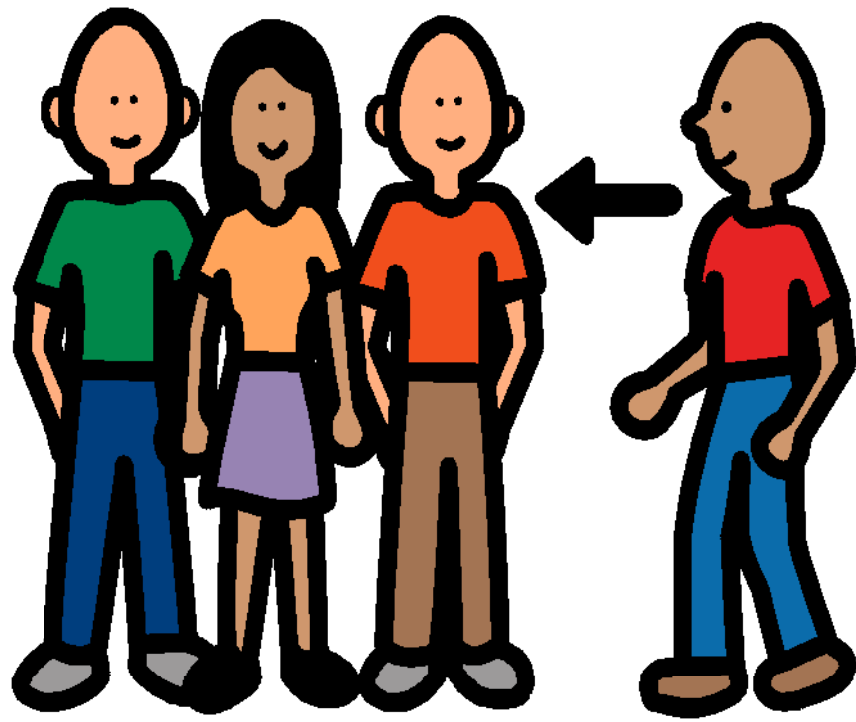

7

I can say "Hello! What are you doing?"

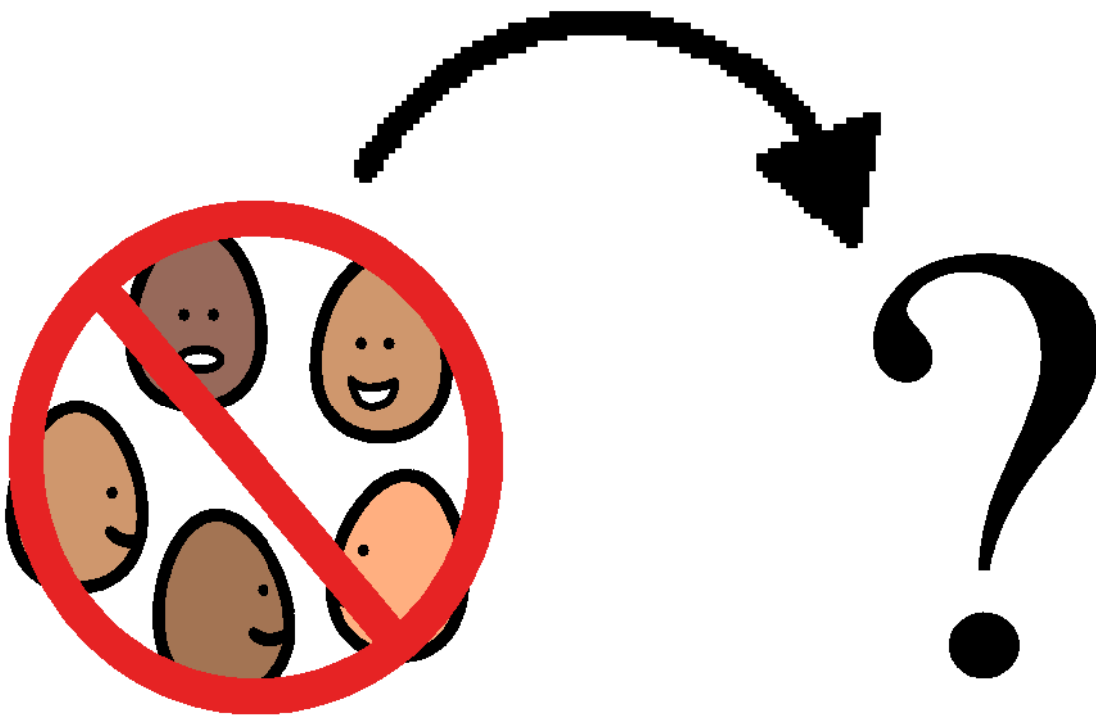

I can say "Can I play too?"

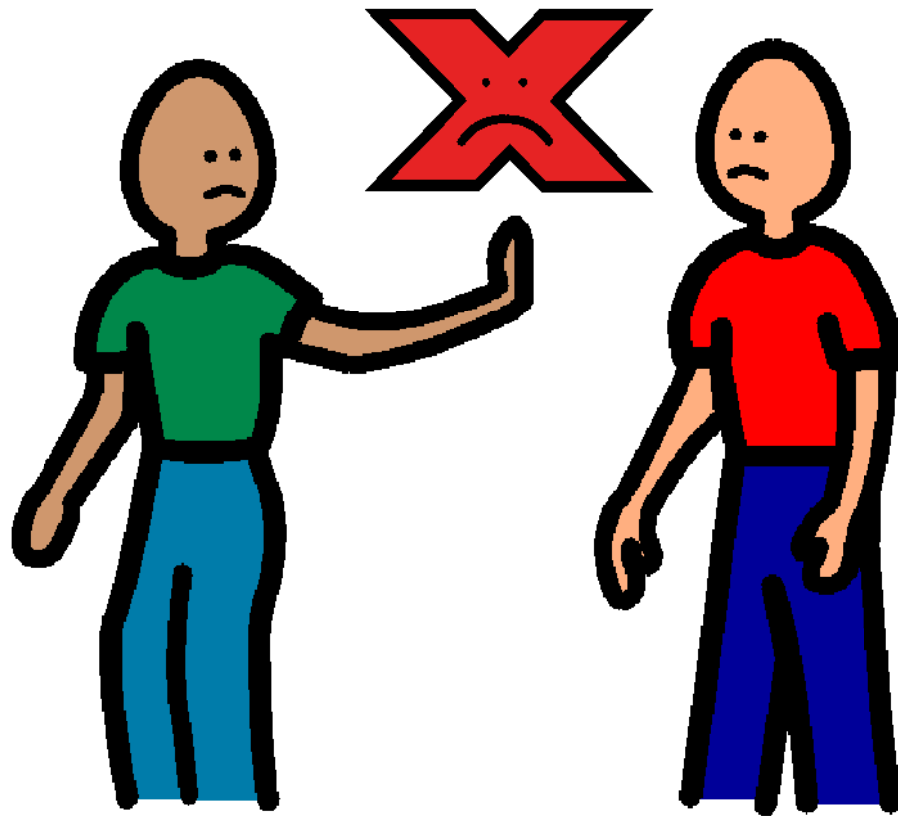

Then my friends might let me play their game.

9

If my friends say "No", I can find something else to do.

11

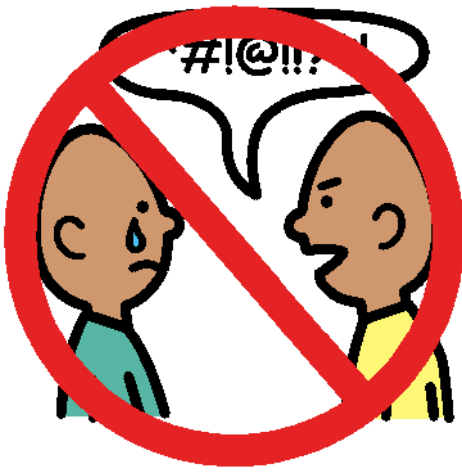

Sometimes, even when I use my words, my friends say "NO". This is ok.

10

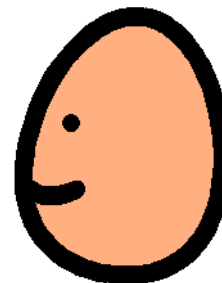

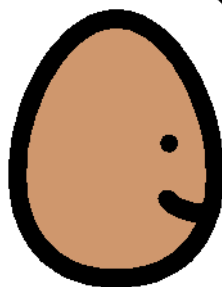

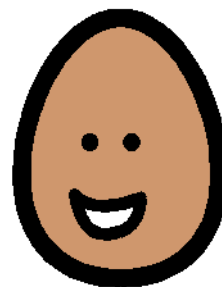

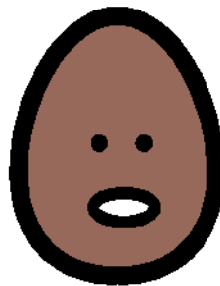

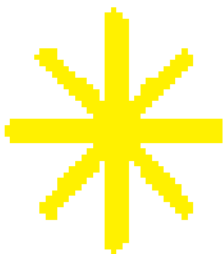

I can play on my own or ask someone else to play.

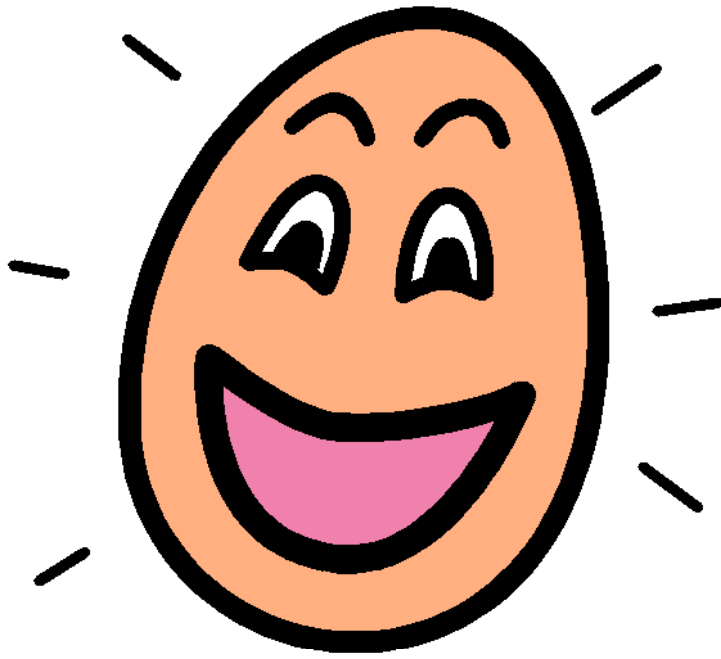

12

It is not ok to scream, or hit, or push my friends when I want to play with them.

It's great to play with my friends at school.

When I use my words and ask my friends to play, I feel really happy, and my friends do too.
