Kaufman Test of Educational Achievement - Third Edition (KTEA-3)

Administration and Scoring
Learning Outcomes

PARTICIPANTS WILL BE ABLE TO:

- Identify KTEA-3 features & materials
- Identify when to use the KTEA-3
- Administer the KTEA-3
- Score KTEA-3 using scoring software
- Explain procedure for accessing scoring permissions
- Use report template to create KTEA-3 reports
- Introduce the error analysis score option
- Introduce the teaching objectives and tools available to inform IEPs and instruction
KTEA-3 Features

- Lowered age to 4:0
- Added norms for Pre-K
- Aligned content to Common Core State Standards
- Error analysis based on normative reference group offers teaching objectives and strategies aligned to common core
- Provides measures of all 8 specific learning disabilities identified in IDEIA, 2004
- Written Expression
  - Pre-K and K students trace and copy letters, and write letters, words, and a sentence from dictation
  - At grade 1 and higher students complete writing tasks in the context of a visually engaging grade appropriate story format
  - Grades 1 and higher items include writing sentences from dictation, adding punctuation and capitalization, filling in missing words, completing sentences, combining sentences, writing compound and complex sentences, and writing an essay based on the story.
Cultural and Gender Bias Reviews

- Achievement test results may be impacted by cultural and language factors and level of formal education. These factors should be taken into account when interpreting test results. The manual states that student who are "proficient in English should be administered the KTEA-3.

- The KTEA-3 content has undergone extensive bias reviews and statistical analysis to ensure that examinees of either sex and from a variety of ethnic and socioeconomic backgrounds can be assessed with confidence.

- Technical and Interpretive Manual on flash drive contains more in depth information on the KTEA-3 test development and norming.
Cultural/Linguistically Diverse Students

- Schools should make sure to carefully go through steps outlined in our Student Intervention Team (SIT) process before being considered for special education.
- KTEA-3 results will be interpreted by school psychologist to account for language-laden subtests.
- Scores may not be reliable.
KTEA-3 Materials

- Administration Manual
- Scoring Manual
- Stimulus Books
- Record Forms
- Response Booklets
- Written Expression Booklets
- Flash Drive
- Stopwatch
Additional Flash Drive Files:

- Audio Files (Form A and B)
- Error Analysis Worksheets (reproducible)
- Hand-Scoring Template (reproducible)
- Scoring Keys for Math Fluency and Silent Reading Fluency (reproducible)
- Common Core Standards Alignment (technical manual pg. 136)
- Qualitative Indicators record form (reproducible)
  - Identifies subtest specific qualitative indicators
  - Looking at things that are not captured in normal scoring
Administering the KTEA-3

When to use the KTEA
KTEA clusters and subtests
Subtest descriptions
General and subtest tips
When to use the KTEA-3

Use the KTEA-3 (or another appropriate academic achievement test):

- As a part of an Initial Evaluation:
  - Specific Learning Disability
  - Intellectual Disability
  - When there are academic concerns

- As part of a Re-Evaluation ONLY when the team determines that this information is needed for developing the IEP or making eligibility decisions.

Informing SLD Mathematics Eligibility

A standard score (SS) of 85 or below on the math composite indicates weaknesses in the areas of both math calculation and math problem solving. If the standard score for the composite is above 85, look at the following math subtests to ensure that student doesn’t qualify in a single area:

- A SS85 or below on math computation and math fluency indicates the student has a weakness in the area of MATHEMATICS CALCULATION.
- A SS85 or below on math computation and a below average score on another math calculation assessment (e.g., a score in the 16th percentile or below on EasyCBM) indicates the student has a weakness in the area of MATHEMATICS CALCULATION.
- A SS85 or below in math concepts and applications and a below average score on another math reasoning assessment (e.g., a score in the 16th percentile or below on EasyCBM) indicates the student has a weakness in the area of MATHEMATICS PROBLEM SOLVING.

Informing SLD Written Expression Eligibility

A standard score of 85 or below on the written language composite indicates a weakness in the area of **WRITTEN EXPRESSION**. If the composite standard score is above 85 consider the following:

- A SS85 or below on **written expression** and **writing fluency** indicate a weakness in the area of WRITTEN EXPRESSION even if the student’s spelling score is 86 or above.
- A SS85 or below on **written expression** and a below average score on another writing assessment (e.g., writing work sample) indicates the student has a weakness in the area of **WRITTEN EXPRESSION**

PSW Standard Score Interpretation

On the KTEA-3 - PPS Guidelines are:

- **Strength**: Standard Score of 90 or above
- **Weakness**: Standard Score of 85 and below
- **Neither**: Standard Score of 86 through 89
General Tips

Behavioral Observation:

- Complete this section on the back of the protocol directly after test administration for each subtest.

- Tip: make a copy of the Behavioral Observations to complete as you administer the different subtests.

- After or as you score, check all error boxes for items scored 0. This information can be added to the scoring software to generate intervention planning and IEP goals aligned to the Common Core.
General Tips (con’t)

Discontinue and Decision Rules: These vary among the subtests. Attend to start, basal, and discontinue rules.

Fluency Tests: Timing varies among the three subtests:

- Writing Fluency: 5 minutes
- Silent Reading Fluency: 2 minutes
- Math Fluency: 1 minute
- Word Recognition Fluency: 15 seconds
- Decoding Fluency: 15 seconds

- These kits will be in use for 10 years. Please be gentle. At times, School Psychologists may share the kit with you.
Time to Practice!
For each subtest we will:

1. Introduce the subtest
2. Practice administering/scoring the subtest.
3. Q&A

- First two items are teaching items. If they do not get the item correct, model the correct answer, have them repeat the correct answer, and mark the item as incorrect.
- Always start with #1 no matter the grade level.
- There is an audio recording of nonsense words for teachers to listen to ahead of time to become familiar with the pronunciation of items.
- There is also a phoneme key to mark errors.

Phonological Awareness Subtest

- Teachers may be asked to administer the Phonological Awareness subtest and should become familiar with it.
- This is low incidence, thus is not included in this training.

How to Score the KTEA-3

Logging in to Q-Global and scoring permissions
Entering scores
When to access error analysis
Creating the report
Teaching outcomes and tools for instruction
Logging in and Scoring Permissions

1. Click new examinee tab
2. Enter student’s name, date of birth and gender
3. Find student under “view” and double click on student row to open
4. Click “assign new assessment” button
5. A window will appear that says “All Assessments,” click the KTEA-3 Form A
   a. TIP - click the star next to the KTEA-3 Form A and it will appear in your my favorites tab so you do not have to scroll through all the assessments each time.
6. Click the “assign” button. (be sure to select the examiners name from the drop down menu)
7. Scroll Down to Demographics tab and select student grade and reason for referral
8. Click on the “Score” tab and input Raw Scores and, if needed, item set or level for each sub-test
9. Click on error analysis tab check boxes next to all subtests with a standard score of 85 or below
Scoring the Test

10. Click on tabs to the left to enter error analysis scores

10.1. Select first and last item administered, due to normative reasons not all items may be displayed

10.2. Enter in error information for items displayed

*Tip: if it is not letting you enter scores look for prompts for information that needs to be added and/or click the edit button.

11. Enter in general qualitative observations and qualitative observations for all subtest with a standard score of 85 or below
Logging in and Scoring Permissions

12. Click generate report (wait until the screen loads), then under “include” click:

- Use Respondent Name
- Composite Score Summary Table
- Subtest Score Summary Table
- Omit Age/Grade Equivalent
- Graphical Profile
- Qualitative Observation
- The following analyses are optional, but provide information to lead to targeted instruction/goal writing:
  - Error Analysis Summary (Optional)
  - Error Analysis Teacher Objectives and Intervention Statements (Optional)
  - Error Analysis Word List (Optional)
  - Math Problems List (Optional)
Creating and Using the Report

13. Under “Settings” change norm group to “age”

14. Click generate report (again) - wait patiently for the report to be generated. The report opens up as a PDF - save it to your computer.

15. Transfer standard scores and %iles to your academic report, categorize them as a strength (90+), weakness (85 & below) or neither (86 - 89) in your report. Attach the composite score summary profile and the subtest score summary profile to your report.

16. Teaching objectives aligned to the CCSS will be included in the report for all areas of weakness. You can use these to help you draft IEP goals. Also included are teaching strategies and appropriate accommodations based on error analysis of the student’s academic performance.
Wrap Up

- KTEA Kits are to be shared at each school - another person at your school may require this kit to complete this training - check with your SPED team.
- Use the handouts from this session to guide administration and scoring of the KTEA-3.
- The [report templates](#) are available on the PPS Special Education website.
- Be sure to access Q-Global and set up your account well before scoring the test for the first time.
- For Questions about KTEA-3 contact your TOSA.
